Autumn - Winter

2023/24

*How everything started...

Birinit is a Spanish Brand of children's clothing and footwear. It was created during the spring-summer of 2019 from the illusion of two friends. As mothers of six children, we design Birinit as a **versatile and a timeless brand.** It is a brand that our little ones can be dressed for any occasion: from going to school to being the ring bearer at a best friend's wedding.

Since then and up to the Aw23-24 season, there have been **10 collections** that we have launched to the world.

www.birinit.com

We visualize Birinit as a personal, original, and unique brand.

- * We design and work with passion and care on each collection, seeking to find excellence in each garment.
 - * We believe a beautiful and careful design should not go out of style after months. For this reason, each collection is timeless.
 - * The patterns of our collections are hand-painted in watercolor exclusively for Birinit.
 - * Our production is handmade and made in Spain, which guarantees the highest quality in our finishes.
 - * The collections are designed to combine different ages (from 0 months to 12 years) and genders and even to match mothers and children.
-

We take care of all the processes in Birinit, from production to brand image. This is the reason why we seek to collaborate with projects that inspire us and understand product care in a very similar way to ours.

*Birinit today

We are very excited to see the growth of Birinit in these few years. We have a consolidated presence in several stores in Spain. Internationally, we have points of sale in another 10 countries throughout the world, in the United Kingdom, the United States, Korea, Japan and China among our main markets.

There are currently 60 Birinit stores that we value and carefully analyze to ensure that they are in line with our brand's image and that they attract our customers.

“Remember, friendship was eternal when we were children playing in the storm”

· Xael López ·

What would you like to say if you could throw a message in a bottle?

The ocean has always been the most attractive Nature element. It could be because of its sand, the animals living in it, the blooming algae and flowers, the sunlight hitting its surface, or the gigantic tides hitting the cliffs at sunset. Or it could also be due to its numerous legends, old and new, the lost treasures, the aimless ships, or the tales of the unfinished battles with failed boardings.

The ocean is enigmatic and wild. And he has a lot to tell us.

Rachel Carson, a marine biologist, writer, and the mother of modern ecology, once said:

*“If there is poetry in my books, it is not because I put it there deliberately,
but because no one could honestly write about the oceans and omit the poetry.”*

For this reason, for many years, she wrote small letters that she threw away into the ocean. She used to say that she only wanted to return part of the knowledge that she received from the oceans. Since the contents of the letters were never made public, that knowledge was only shared between the ocean and Rachel.

The ocean is a mystery, and for as long as mysteries have existed, passionate people have been dedicated to disentangling them.

Who can accomplish this task better than the little ones in the house? Their world is fresh and new, full of wonder and excitement. Also, the ocean is the home of the brave, and no one is less afraid of the unknown than children.

Therefore, we also want to give back to the ocean as part of its inspiration. This is how Message in a bottle, Birinit's new autumn-winter collection, was born.

This year, the collection prints are inspired by places located around water, like Cíes, Positano, Creta and Milos.

The coolest coats, along with our Gingham, basics, accessories, and shoes, return to Birinit -- as it is a tradition to offer the wildest and most adventurous looks. Knitwear stands out like never before, thanks to sweaters, panties, and many more surprises.

The finishing touch is our new sweaters, which will surely become your new favorite piece of clothing.

Have you already decided what you want to tell us?

*The way we are

Talking about Birinit is talking about our own story. It is talking about the story of Sara and Anita: designers, businesswomen, mothers, and friends. As designers we had an idea: to create unique prints from artisanal processes, producing locally and getting away from the temporality in the fashion. As **businesswomen**, we had a dream: to create a project that combines exclusivity, quality, and style. As **mothers**, the will to create a refuge where we remember what we use to be, express what we are now, and inspire what our little ones will become tomorrow. And, as **friends**, the excitement of working side by side with someone who drives you, enriches you, challenges you, and makes you a better person.

Birinit is our story, of course, but also the story of many other women. Women who strive to make every day unique and manage to keep the beautiful patterns of the past in the present.

Today our designs are growing up and traveling around the globe. But the most exciting thing is moving forward without losing the essence with which we started on this adventure. Because, even when everything changes, the authentic, the true, always remains with us.
